Dear Mr. Maupin,

I just wanted to take this opportunity to thank you and praise your team for a terrific assembly. You completely engaged the students and spoke in their language. Your message of resisting the dangers and traps of illegal drugs and violence was very powerful. Weeks later our students are still talking about how great the assembly was. The message of hope, respect for others, and the importance dreams play in the drive to pursue our goals was also driven home.

Your team took the time to greet and sit with our students as they came into our cafeteria for lunch. This impacted our students very favorably, as they felt important, liked, and valued. It was reinforced again and again how there are always teachers, councilors, or family members who are willing to listen to problems student are facing. There is always hope and a solution to any problem.

The fact that your message can be tailored to any problems or issue a school is facing is a definite advantage over other groups. Thank you again for coming and please use this letter as a recommendation to any school.

Together reaching students,

Kurt Schulte
Police Officer
Sanibel Police Department
School Resource Officer / The Sanibel School
