Learning

To Whom It May Concern:

August 15, 2010

On August 14, 2010 the Iredell-Statesville School District had the distinct pleasure of having Jason Maupin present his message to the incoming 9th grade students at our Summer Transition Camp. Jason's story is both relevant and engaging while empowering students to make the right choices in life. Through his presentation students learn practical ways to deal with the challenges and obstacles they may face. Jason's sincere commitment to helping youth is evident as he shares his life story and opens himself up to their needs and concerns. During his visit, Jason not only spoke to our students, but also went above and beyond to spend individual time with them. Overall, Jason Maupin's presentation is one of the most inspirational and powerful messages for today's youth.

Please feel free to contact me if you have any questions or you would like to hear more about our outstanding experience with Jason.

Sincerely,

Tim Ivey
