To Whom It May Concern:

In November 2019, our student body had the privilege of hearing a presentation from Jason Maupin. To say that the students at our school were moved would be a tremendous understatement. I was skeptical when the opportunity was brought to me because I have seen school assemblies go very poorly, but I could not have been more wrong.

Jason brought a message that connected to a wide variety of students from different background on a level I had not seen before. This comes from the fact that his message is so versatile that it can be used to combat most issues that teenagers face. He met individually with several students who were impacted the most. His blend of humorous story-telling with traumatic events from his upbringing kept our audience engaged and attentive. Jason has a passion and intensity to help young people through tough times, and this, along with his genuine caring, is what made the biggest impression with our students. His wife, Jessica, also blew the doors off the place with her amazing singing talent. In the month since the presentation, we have heard nothing but positive reviews and requests to bring him back.

If you have the chance to get him in your school, do not pass it up.
